

UR FOG

THE FASTEST SECURITY FOGGING SYSTEMS

EASY UR FOG SYSTEM

Easy

is the ideal fogging system to protect small / medium areas like shops, homes, garages and shoots full fog cylinder in one time till the end. You choose a needed model of fog cylinder depending on how big is the area to protect. There are 3 different fog cylinder models, one for 50-70 m3, one for 100-140 m3 and one for 150-200 m3 and you shoot all the cylinder when the machine is triggered, then you just change it with a new one in a very easy way. It shoots very fast and may cover 200 m3 in less than 20 seconds. The price of Easy fog machine is the most aggressive in the market but has performances as speed of fog ejection of a top professional machine.

The fastest and most powerful machines shooting up to 1200 m3 for 1 shot

The most dense fog among fogging systems thanks to 80% glycol in its fog fluid and the proprietary shooting technology based on fog cylinders

Removable and no need to recharge patented fog cylinder, it is very easy to change and with a very competitive quotation

Thanks to the massive insulation ur fog fogging systems have a very low power consumption and can shoot for longer time in absence of main power, temperature is stable all the time.

A unique serial bus to plug on the electronic board an add on board that allow to make easily interface cards for direct connections with alarms and to allow the full control of the machine even from remote, it has a standard protocol for all machines

The UR FOG Fog Cannons are cutting edge and innovative as technology and performance to offer the best possible protection against theft and are protected by numerous patents.

The UR FOG Fog Cannons have been certified and tested to ensure maximum safety and reliability. The mist leaves no residue and is certified to be nonhazardous to humans and animals.
